

PROSECUTION RESTS IN THE SCHMIDT CASE

(Republican A. P. Leased Wire)
LOS ANGELES, Dec. 21.—The prosecution rested today in the trial of Matthew A. Schmidt, charged with the murder of Charles Hagerty, one of the twenty persons killed in the explosion which destroyed the Los Angeles Times building, October 3, 1910. Attorneys for the defense waived the right to make an opening statement to save time, and will begin tomorrow the introduction of testimony.

Wm. J. Burns, the last witness for the prosecution, told of a nation wide search he conducted for Schmidt and of one trip to Europe he made in an effort to locate him.

It developed today that Chas. A. Twitmore, of San Francisco, secretary-treasurer of the State Building Council, was to be a witness for the prosecution. Twitmore, who has been almost constant in attendance at the trial as a personal friend of Schmidt, was not in court today and it was believed he had gone to San Francisco. The prosecution closed its case with a stipulation on the part of attorneys for the defense that Twitmore's testimony be admitted later.

According to Thomas Lee Woodcock, district attorney, Twitmore will be asked about several trips he is said to have made to Los Angeles and the expenditure of money during the labor union troubles here, in the summer of 1910. It was stated the purpose was to corroborate in a general way the testimony of other prosecution witnesses along this line.

Nathan C. Coghlan, chief counsel for the defense, stated that he would produce less than fifty witnesses and that their testimony probably would not extend over more than two weeks.

He said he would begin tomorrow by offering testimony for the purpose of showing that Donald Voss Meeserve was characterless and unworthy of belief. Meeserve testified yesterday for the prosecution that he was employed to find Schmidt, that he lured him into confidence and he told of alleged conversations in which he said the defendant admitted being an accomplice in the destruction of the Times building.

This will be followed, according to Coghlan, by handwriting testimony tending to offset that of the prosecution, which also stated that evidence may be offered in support of the theory that gas, and not dynamite, was responsible for the disaster, and also that the money used by the labor unions in the industrial troubles here was expended in a legitimate manner.

LOCAL NEWS NOTES

DON'T KILL DEER NOW—State Game Warden Willard has asked The Republican to call attention to the fact that it is now illegal to shoot deer, and has been since December 15. AMBASSADOR PENFIELD BENDS EVERY EFFORT TO KEEP RELATIONS FRIENDLY

Ambassador Penfield.

If relations between the United States and Austria are broken off the fault will rest with Ambassador Penfield, the American representative at Vienna. Penfield is using all the arts of diplomacy to keep relations friendly, but has given the Austrian government to understand that this country will not recede from its position with regard to submarine warfare.

HUNGARIAN PREMIER BLAMES WAR ON ALLIES

(Republican A. P. Leased Wire)
BUDAPEST, Dec. 21.—Eugen Stupka, the Hungarian premier, in the house of magnates today discussed the probable duration of the war. He said the length of the conflict depended upon those who started it. "We will continue to fight until they cease their attacks upon our territory, independence and national greatness," he said. "We will continue the war until our enemies see that any further prolongation merely causes unnecessary suffering and suffering among the people. The events of nearly a year and a half in the various areas of the war have given the situation definiteness."

Already our enemies can know that they cannot accomplish the object of their attack, and that our victory will create a stronger and more secure world. We will not accept any conditions upon the surrender of the war or upon the peace of Europe as their victors would impose. Every function of the state and in this terrible struggle of nations will be shed in the blood and the tears of the people. We must be true to the principles of justice and honor by those who engaged in the war from selfish motives and not of respect for the honor of the nation. We must be true to the principles of justice and honor by those who engaged in the war from selfish motives and not of respect for the honor of the nation.

STRIKE IN MUNITIONS PLANT MAY REVEAL NEW WAR PLOT

CHICAGO, Dec. 21.—Federal investigation of an alleged war plot was begun today as the result of a strike of some of the employees of the Sturges and Smith Manufacturing company, at Bellwood, and the meeting of relatives to other employees calling for the taking of a strike vote. An officer of the company filed a complaint with the federal office, saying that of the nearly 200 employees of the company only about 25 had taken the strike vote.

quid, but the posting of the notices and other incidents led to the belief that there was a concerted plan to foment trouble at the plant. The company has been making airplane shells and cartridges since for use of the European nations now at war.

Henry G. Clum, division superintendent of the bureau of investigation, took of the department of justice at saying that the federal office at Chicago had been investigating the plot of the company.

ONLY DOLLAR SECURITIES ARE SOUGHT

(Republican A. P. Leased Wire)
LONDON, Dec. 21.—The London Gazette publishes today a government invitation to holders of American and Canadian dollar securities to place them at the disposal of the treasury, either by sale or loan. The accompanying memorandum says that only purely sterling securities will be accepted and that it is essential that all securities tendered be expressed in United States or Canadian currency, or if expressed in sterling that they shall be convertible at the holder's option into dollar securities.

No bonds will be accepted on which dividend has not been paid for a year, and no stock will be accepted unless a dividend of three percent or over has been regularly paid on it since January 1, 1915.

All securities tendered must be supported by a statement of a banker or other responsible party that they have remained in the personal possession of the holder in the United Kingdom since September 30, 1914. Subject to these conditions the following will be acceptable:

Any securities quoted on the London stock exchange and United States government bonds, United States or Municipal bonds, securities of United States railway or public utility companies, Canadian government, Provincial and Municipal bonds and Canadian railway securities.

Bonds and stocks of industrial corporations. It is stated in the invitation that the rule is not applicable "except in the case of large corporations, such as the United States Steel corporation, etc." All lists totaling less than \$25,000 except in the case of insurance and trust companies, must be submitted to a member of the stock exchange whose commission will be paid by the treasury. As it will be impossible for the treasury to accept more than a limited amount of securities under this scheme for the present, it is announced that the invitation may be temporarily withdrawn at any time.

Holders of American securities are reminded that if they do not avail themselves of the invitation they can still contribute materially to the allied cause by selling their securities in the open market and reinvesting the proceeds in British government securities.

SOLDIERS' HOME IS DEDICATED IN SWITZERLAND

(Republican A. P. Leased Wire)
BERNE, (via Paris), Dec. 21.—The dedication of the Woodrow Wilson soldiers' home took place this afternoon. Several American soldiers from France and elsewhere in Switzerland attended the function and representatives of the Swiss army and government also were present.

President A. Struhal, the American minister in his address said that all Americans living in Switzerland admired Swiss patriotism and unity, which could be a lesson for many other countries. Colonel Wilhelms, commander of the Third army division, expressed the thanks of the Swiss army for the gift of the home which he said was an indication of the friendship of the Swiss people for the American republic, and would make the name of Woodrow Wilson unforgettable forever in Switzerland.

The Wilson home will be transferred shortly to the Swiss soldiers' quarters at Thudendorf, near Zurich.

Americans in Switzerland contributed \$500 for the erection of three soldiers' homes which are suitable for being transported along the frontier where Swiss soldiers are stationed. The long line under rigorous mountain conditions. The homes will bear the names of three American presidents, George Washington, Abraham Lincoln and Woodrow Wilson.

President Wilson wrote the inscription for the home bearing his name. It said:

"This home was erected by citizens of the United States as an evidence of their admiration for the Swiss republic, of their gratitude for its hospitality and protection and of the cordial and sincere friendship which has always existed between that ancient republic and government and the people of the United States of America, friendship based upon common principles of life, common ideas and common aspirations."
